# CLIENT TESTIMONIALS

“

I was extremely impressed with the knowledge and dedication the team brought to our site. It seemed a simple job but the attention to detail and thought they put into the project was astounding. The focus they placed on proper grading and then explaining it to me was limitless knowledge I now have. It made me feel jealous of a trade that is based fully in feature and art combined with nature and earth. I would highly recommend them to anyone from small to large project!

- **AMY STRAUSS**

"LP transformed our outdoor space with creativity and professionalism, exceeding our expectations with a meticulously planned design and attentive maintenance services. Their passion for creating beautiful landscapes shines through in every detail, making them our top choice for any landscaping needs."

- **OLIVIA COX**

"Landscape Plus's expertise in design and maintenance transformed our outdoor space, delivering exceptional results. They were professional, and great to work with ( we still use them for our monthly lawn maintenance). Highly recommended for anyone seeking top-notch landscaping services."

- **CHRIS CULLEN**

# THE PLUS, IS IN OUR PROCESS

## Landscape Plus

We have a large yard that we bring in all your materials in advance. This gives you the opportunity to review, touch, and feel everything before it arrives at your property for installation.

For plant material, we invite you to visit the local nursery all your plants are procured from. We can arrange a time to meet where all your plants will be set out for you to see and can make adjustments if there's something not quite what your were expecting.

Before we put shovels in the ground, we schedule a pre-site visit that involves the entire team. We set grades and paint out the project so you can start to visually see it coming together. We also discuss the project in detail, going over our arrival time, what is expected of any residents, time lines, where we store materials, etc.

Our team is dedicated to your project everyday (weather and sub-contractor permitting) until the project is complete.

We send a weekly update on our progress for the current week, goals for the following week, and any update regarding sub-contractors. Technology has allowed us to easily do video calls to discuss any updates so you can have a clear visual of what is being discussed without having to be on-site.

Friendly, courteous staff who keep a clean jobsite. One of the biggest compliments we get is from neighbours of our clients.

Our final walk-through involves the entire team again and this is an opportunity for us to make sure you are completely satisfied with every aspect of your project.

We are outdoor sound and lighting specialists. We believe that these two elements add a critical wow factor to every landscape.

You are a client for life. We offer a fully customizable maintenance package, ranging from a spring or fall cleanup to a weekly visit.

## LANDSCAPE PLUS, HAS GONE GREEN!

At Landscape Plus, we're thrilled to unveil our latest endeavor in sustainable practices: an all-green, electric equipment team! As leaders in the landscaping industry, we understand the vital role we play in preserving the environment while maintaining beautiful outdoor spaces. With this innovative initiative, we're taking a giant leap towards a greener, cleaner future.

### Why are we so excited about our all-green team? Let us tell you:

#### 1. Commitment to Sustainability:

Our decision to transition to electric equipment is rooted in our unwavering dedication to environmental stewardship. By minimizing our carbon footprint and reducing emissions, we're actively contributing to a healthier planet for generations to come.

#### 2. Cutting-Edge Technology:

Embracing electric-powered tools doesn't mean compromising on performance. In fact, our state-of-the-art equipment boasts cutting-edge technology that rivals traditional gas-powered alternatives. From lawn mowers to trimmers, each tool is meticulously selected for its efficiency and eco-friendliness.

#### 3. Quiet Operation:

Bid farewell to noisy landscaping operations! With our electric equipment, you'll enjoy a serene outdoor environment without the disruptive sounds of gas-powered machinery. Whether you're working, relaxing, or hosting an event, our quiet operation ensures minimal disturbance.

#### 4. Enhanced Safety:

Safety is paramount in everything we do. By utilizing electric equipment, we're mitigating the risks associated with combustible fuels, such as accidental fires and harmful emissions. This not only protects our team members but also safeguards your property and the surrounding environment.

Contact us today to learn more about our eco-friendly services and how we can help bring your outdoor spaces to life, sustainably!

# THANK YOU FOR YOUR CONSIDERATION

We appreciate the opportunity to share how we can support your needs and enhance your property!

## Get Back to Enjoying Outdoor Living!
